**For your hearing**

Savox Noise-COM 500  
Savox Noise-COM 500XP

 **Bluetooth®**

For people working in demanding environments, with noise hazards such as power plants, construction sites and industrial surroundings. You do not need to shout with Savox Noise-Com 500.

## KEY VALUES

- 1 Wireless connection to **Bluetooth®** enabled devices such as mobile phones and two-way radios.
- 2 Enables **clear and reliable communication** in the most demanding environments with noise hazards.
- 3 **Ambient sound reproduction (Savox Noise-COM 500XP)**
- 4 The advanced **noise-canceling boom microphone**.

Ambient sound reproduction protects hearing from harmful noise while warning signals, speech, instructions and other signals in lower levels of noise can be heard. Improves safety by not isolating the user from the surroundings. Ambient sound attack, hold, and release time can be adjusted by three pre-set setting fast, medium, and slow.

### Industry known ambient sound profiles for different noise environments:

<b>DEFAULT</b>	Setting with frequency range optimized for most noise environments. Amplifies speech frequencies for safety reasons.
<b>NARROWBAND</b>	Limited frequency range for most demanding noise environments. Only speech frequencies are reproduced to the user.
<b>NEUTRAL</b>	Wide frequency range for best situational awareness

### Technical details:

- Bluetooth 5.0
- Ambient sound with audio profiles (NC-500XP)
- Voice prompted menu
- Build-in rechargeable battery
- Professional two-way radio PTT compatibility
- Easy accessible rotary button for push-to-talk and ambient sound volume adjustment
- Unique casting technique protects the electronics for maximum reliability
- Noise-Cancelling boom microphone
- Low battery warning and automatic switch off
- Made in Finland

**Listen to your favourite audio without compromising safety.**

**Crystal clear communication and ambient sound for your needs.**
